

Responsible Canadian Energy™

Safety as a Leading Indicator of Performance

Dave Collyer - President, CAPP
ENFORM Petroleum Safety Conference
May 5, 2010

Presentation Overview

- **What is CAPP?**
- **Safety as a leading indicator of performance**
- **CAPP's role in improving industry's safety performance**
- **Responsible Canadian Energy Program**
- **Conclusion**

Canadian Association of Petroleum Producers

- **Members explore for, develop and produce natural gas, natural gas liquids, crude oil, and oil sands throughout Canada**
- **Members produce about 90 per cent of Canada's natural gas and crude oil**
- **Part of a \$110 billion-a-year national industry**

CAPP's Mission Statement

- To enhance the economic sustainability of the Canadian upstream petroleum industry in a safe and environmentally and socially responsible manner, through constructive engagement and communication with governments, the public and stakeholders in the communities in which we operate.

Industry's Commitment to Safety

- We are *responsible* by virtue of our *performance*

- **Internal governance**
 - **Strategic Health and Safety Committee**
- **Specific safety initiatives**
 - **Supervisor Competency + Contractor Management**
- **The evolution of CAPP's Stewardship program**
 - **Responsible Canadian Energy**

Responsible Canadian Energy Program

- **Responsible Canadian Energy Program**
- **Performance + Communication**

Responsible Canadian Energy - Vision

•We will conduct our business activities in a safe and sustainable manner, balancing social, economic and environmental considerations. We will hold each other accountable and measure ourselves against the following principles....

Responsible Canadian Energy - Principles

- **Provide a safe and healthy workplace for our employees, contractors and for the communities in which we work, with a goal to do no harm**
- **Conduct our activities in an environmentally responsible manner**
- **Engage our stakeholders in open and responsive communications**
- **Create opportunities for economic and social benefits in the communities in which we operate, at a local and national level**
- **Conduct our business activities with integrity, ensuring all people are treated with dignity, fairness and respect**

Standard of Practice – Safety & Wellbeing

- **Training and Competency**
- **Fit for Duty**
- **Management of At Risk Workers**
- **Journey Management**
- **Emergency Preparedness and Response**

Conclusion

- **Safety is the leading indicator of our business performance.**
- **We are all responsible for delivering responsible Canadian energy and it starts with protecting our workers and our neighbors in the communities where we operate.**
- **We must all contribute to ongoing performance improvement.**
- **Collaboration is the best means to achieve results.**
